March 25, 2008

Keith A. Orris
Vice President for Administrative Services
Franklin and Marshall College
P.O.Box 3003
Lancaster, Pa, 17604-3003

Dear Mr. Orris:

The Board of Supervisors of East Hempfield Township has asked me to write to you about the proposal we received at our March 19, 2008 meeting concerning funding a separate environmental study by a Mr. Gary Brown P.E. The request was made by a group of citizens concerned about the relocation of the train yard. Their name was stated as, "The Railroad Action Committee". This environmental study would be to scrutinize the Norfolk Southern Project near Harrisburg Pike in Manheim Township that Lancaster General Hospital and Franklin and Marshall College are funding and developing. At our meeting on the above date, the board voted to fund up to one-third of the \$5,000.00 needed to complete the study with hopes that Manheim Township and Lancaster Township would fund the rest. In addition, the board would welcome contributions from Lancaster General Hospital and Franklin and Marshall College. Please call me with any questions or ideas your organization has in relation to this study.

Sincerely,

Robert S. Krimmel
Township Manager

Cc. John Bingham, Board Chairman
