Lancaster, PA 17604-3007

Re: Franklin & Marshall College Remediation of Brickyard Site  
Request that Franklin & Marshall College Implement a Public Involvement Plan

Dear Mr. Orris:

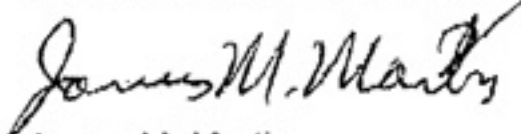

With respect to the Notice of Intent to Remediate to a Site Specific Standard published by Franklin & Marshall College ("College"), which pertains to a site known as the Lancaster Brickyard site located at Vermont Avenue in Manheim Township, Lancaster County, Pennsylvania, which is owned by the Lancaster County Solid Waste Management Authority, Manheim Township ("Township") hereby requests the College to develop and implement a public involvement plan in connection with the College's intended remediation cleanup and use of this site.

It is not only the desire of the Township that a public involvement plan be developed and implemented, but also that of Lancaster Township and East Hempfield Township, the Township having received requests from both of those municipalities that this request be put to you.

We will look forward to hearing from the College as to the measure intended to be used to involve the public.

Sincerely,

MANHEIM TOWNSHIP COMMISSIONERS

James M. Martin  
Manager-Secretary

JMM/lmd
